

# Student Technician/Developer

## Position Type

Part-time/Non work-study

## Description

Work with full-time staff to maintain and develop web-enabled user interfaces including reports, data entry, menus, automated processes and interfaces to various systems. Additional assignments include researching and providing alternatives to user interface issues on underlying infrastructure and database architecture.

## Qualifications

- U.S. Citizenship required.
- Applicant selected will be subject to a government security investigation and must meet eligibility requirements for access to classified information at the level appropriate to the project requirements of the position.
- Prefer undergraduate student pursuing a degree in Computer Science, Management Information Systems or other related field at the Sophomore or Junior level.
- GPA greater than or equal to 3.0.
- Some experience writing SQL scripts is preferred.

## Approximate Hours per Week

15-20 hours per week beginning 12/10/2018

## Hourly Wage

\$15.44/hr or more based on student classification and relevant experience.
